skills

React • Redux • Express • JavaScript • Python • Flask • PostgreSQL • MongoDB • Docker • Jekyll • Pug • HTML5 • CSS3

projects

RappaMappa

[live site](#) | [github](#)

JavaScript • React • Redux • Express • MongoDB • Google Maps JS API • Spotify Web API • CSS3 • Heroku

interactive map with 581 popular hip-hop artists & associated information

- utilized Redux to manage state and populate low-level state change to higher-level components
- integrated with Google Maps JS API and Spotify Web API to create data-rich user experience
- created responsive design utilizing Material UI for consistent cross-device experience

Tappdin

[live site](#) | [github](#)

Express • Postgres • Pug • JavaScript • CSS3 • Heroku

beer tracking CRUD app | clone of Untappd

- created Express server with RESTful APIs to serve application data
- cookie-based JWT user authentication for persistent session management and user account security
- dynamically rendered content using modular Pug templates via frontend server

ben.perlmutter.io

[live site](#) | [github](#)

JavaScript • Jekyll • CSS3 / SASS • Liquid • HTML • Markdown • Github Pages

custom-built personal website with Bitmoji theme & blog

- designed and created unique user experience based on Bitmoji with custom HTML, CSS and Javascript
 - built custom home, about and portfolio pages to complement custom theme and clearly present personal info
-
